# **Oil-Dri Reports Third Quarter and Nine-Month Results**

CHICAGO – (June 8, 2010) – Oil-Dri Corporation of America (NYSE: ODC) today reported net sales for the third quarter of \$56,259,000, a 3% decrease compared with net sales of \$58,053,000 for the same quarter of the previous year. Net income for the third quarter was \$2,586,000, or \$0.35 per diluted share, a 6% increase compared with net income of \$2,416,000, or \$0.33 per diluted share, in the same quarter one year ago.

Net sales for the nine-month period were \$164,397,000, a 9% decrease compared with net sales of \$180,311,000 for the same period one year ago. Net income for the nine-month period was \$7,042,000, or \$0.96 per diluted share, compared with net income of \$7,034,000, or \$0.97 per diluted share, in the same period one year ago.

#### THIRD QUARTER REVIEW

President and Chief Executive Officer Daniel S. Jaffee said, "During the quarter, earnings were up compared to the third quarter one year ago. This growth was achieved despite the continued effects from reduced distribution of our Cat's Pride branded cat litters at Walmart.

"The Business-to-Business Products Group contributed strongly to earnings growth in the quarter. A combination of increased unit volume and sales of high value products in our fluids purification and animal health groups helped to expand gross profit margins in the quarter to 23.4% from 22.8% in the same quarter one year ago.

"The diversity of our product portfolio and the markets we serve, have been a benefit through these difficult economic times. Our business remains healthy, showing substantial cash generation. In addition, during the quarter we continued repurchasing Common Stock through our buyback program."

#### QUARTERLY BUSINESS REVIEW

Net sales for the Company's Business-to-Business Products Group were \$57,577,000 and group income was \$15,329,000 for the nine months. Net sales for the quarter were \$21,444,000 and group income was \$5,903,000. Net sales and unit volume were up substantially for fluids purification clays, animal health enterosorbents and sports field products. Net sales and volume were down for agricultural chemical carriers due to the continued decline in this market. Overall costs and expenses for the Group were down in the quarter.

Net sales for the Company's Retail and Wholesale Products Group were \$106,820,000 and group income was \$9,101,000 for the nine months. Net sales for the quarter were \$34,815,000 and group income was \$2,769,000. Shipments of Cat's Pride branded litters increased as a result of Walmart's limited reinstatement of those products that began shipping in the third quarter. Net sales and unit volume were up for industrial and automotive products.

#### FINANCIAL REVIEW

Net cash provided by operations was \$20,096,000 for the nine-month period compared to \$8,307,000 for the nine-month period one year ago. Cash was up substantially primarily due to improvements in working capital.

Cash, cash equivalents and short-term investments at April 30, 2010, totaled \$25,638,000. Capital expenditures for the nine-month period totaled \$7,945,000, which was \$2,433,000 more than the period's depreciation and amortization of \$5,512,000.

On March 11, 2010, Oil-Dri's Board of Directors declared quarterly cash dividends of \$0.15 per share of outstanding Common Stock and \$0.1125 per share of outstanding Class B Stock. The dividends were payable June 4, 2010 to stockholders of record at the close of business on May 21, 2010.

At the third quarter closing price of \$20.50 per share and assuming cash dividends continue at the same rate, the annual yield on the Company's Common Stock is 2.9%. The Company has paid cash dividends continuously since 1974 and has increased dividends annually for the past six years.

During the quarter the Company repurchased 78,129 shares of Common Stock at an average price of \$19.07 per share. The Company's current repurchase authorization has 410,114 shares of Common Stock remaining.

The effective tax rate for the first nine months of fiscal 2010 was 29.5% compared with 27.3% for the same period in fiscal 2009. The increase in the rate is based upon the Company's projected level and composition of income. The percentage of income attributable to higher margin Business-to-Business products is greater this fiscal year than last fiscal year.

#### LOOKING FORWARD

Jaffee continued, "We are optimistic that current sales trends will continue as we head into the fourth quarter. Our costs for diesel fuel and global freight, however, have been on the rise recently and we are now focused on managing those and other costs that are increasing."

###
