

OIL-DRI CORPORATION OF AMERICA

CREATING VALUE from SORBENT MINERALS

WHO WE ARE

Oil-Dri is a leading manufacturer and supplier of specialty sorbent products for consumer and business to business markets. With over 80 years of experience, we have grown to become a vertically integrated, global organization with extensive mineral reserves, innovative product development, efficient manufacturing operations, and effective sales and marketing strategies. Oil-Dri remains dedicated to fulfilling its mission to *Create Value from Sorbent Minerals*.

We control hundreds of millions of tons of specialty mineral reserves, including calcium bentonite, attapulgite and diatomaceous shale.

Our corporate office is located in Chicago, Illinois. We operate processing plants in the United States, Canada, and England and have subsidiaries in Switzerland, China, Indonesia, and Mexico.

Innovation is the cornerstone of Oil-Dri's future growth and advancement. Our extensive research and development program continues to discover and develop new products and market applications for our unique minerals.

A RESPONSIBLE APPROACH TO BUSINESS

At Oil-Dri, we make it a priority to be a socially and environmentally conscious organization that puts the health and wellbeing of our teammates, customers, community and planet at the forefront of our business. Our established policies and procedures provide a safe and comfortable workplace as we embrace all people, regardless of race, sex, identity, age, religion, nationality, or physical ability. Our manufacturing facilities are continuously making improvements to become more environmentally responsible. We strive to provide safe and effective products for people, animals and the environment.

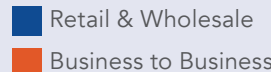

REVENUE BREAKDOWN

FY22 NET SALES: \$349 MILLION

BY PRODUCT

BY OPERATING SEGMENT*

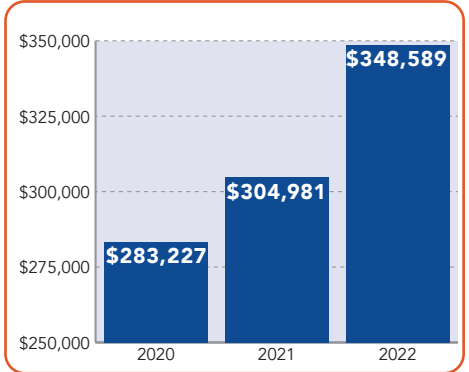

*During fiscal year 2022, our wholly owned subsidiary located in the United Kingdom was moved from the Retail & Wholesale ("R&W") Products Group to the Business to Business ("B2B") Products Group. Our co-packaged coarse cat litter was moved from the B2B Products Group to the R&W Products Group.

MARKETS

Mineral solutions that span numerous industries and create a positive impact around the world.

PET CARE

Oil-Dri is proud to be the patented inventors of lightweight scoopable litter. Our brands include Cat's Pride®, Jonny Cat® and KatKit®. Through our Litter for Good® program, we donate a pound of litter to shelters on every purchase of Cat's Pride®. Our lightweight private label and branded litter and accessories deliver high quality, convenience and performance to make litter box cleanup a breeze.

ANIMAL HEALTH & NUTRITION

Amlan® International produces brand name and private label products that support good health and productivity of species in livestock industries. Our products provide a number of solutions for swine, poultry, and dairy cattle livestock production. Our team includes many industry experts, veterinarians, PhDs and nutritionists.

FLUIDS PURIFICATION

Pure-Flo®, Supreme™ and Perform® bleaching clays aid in processing vegetable oil products. Our Select® adsorbent products reduce water usage in the processing of edible oils. Ultra-Clear® is used for jet fuel processing and Select® for biodiesel; both are industry standards for clay clarification aids. Metal-X® and Metal Z™ are highly efficient adsorbents for the renewable diesel market.

AGRICULTURE & HORTICULTURE

From food crops to flowers, from turfgrass to topiaries, commercial growers everywhere rely on granular carriers to deliver chemical and biological active ingredients to feed and protect their plants. We manufacture Agsorb®, a traditional granule, as well as Verge®, an engineered granule to serve the global agricultural and horticultural industry from seed to harvest.

INDUSTRIAL & AUTOMOTIVE

Oil-Dri supplies industrial and automotive industries with top quality absorbent products that control leaks, spills, and react to unexpected hazards. Our offerings include granular absorbents as well as a complete line of synthetic products such as absorbent pads, rolls, socks, pillows, booms and emergency spill kits.

SPORTS FIELD

Most sports enthusiasts know that playing on a safe, durable and well-maintained surface is integral to a team's success. Our products increase field safety through proper drainage, moisture management and turf growth. Oil-Dri is proud to supply Pro's Choice Sports Field Products® to the majority of professional baseball teams.
