### Oil-Dri Announces Record Sales and Record Earning Per Share for the Fiscal Year ended July 31, 2008

CHICAGO - (OCTOBER 10, 2008) - Oil-Dri Corporation of America (NYSE: ODC) today announced that the combination of increased unit shipments and higher per unit selling prices contributed to record sales and increased earnings for both the fourth quarter and the fiscal year ended July 31, 2008.

The Company reported net sales for the fiscal year of \$232,359,000, a 10% increase compared with net sales of \$212,117,000 for the previous fiscal year. Net income for the fiscal year was \$9,039,000, or \$1.25 per diluted share, a 15% increase compared with net income of \$7,660,000, or \$1.09 per diluted share, for fiscal 2007. The \$1.25 earnings per diluted share for fiscal 2008 eclipsed the previous high mark of \$1.13, adjusted for stock splits.

Net sales for the quarter were \$59,505,000, a 10% increase compared with sales of \$54,159,000 in the same quarter one year ago. The Company reported net income for the quarter of \$2,453,000, or \$0.34 per diluted share, a 17% increase compared with net income of \$2,051,000, or \$0.29 per diluted share, in the same quarter one year ago.

During the second and fourth quarters of the fiscal year, the Company sold California emission reduction credits to an unaffiliated third party. The sales of these credits totaled \$831,000 for the fiscal year and were reported as a reduction to the cost of sales.

#### Fourth Quarter and Fiscal Year Review

President and Chief Executive Officer Daniel S. Jaffee said, "We had a very good year of net sales and earnings growth. We gained new business and expanded product distribution in both reporting segments. While our energy costs to process and transport our products continued to increase throughout the year, we were able to partially recover profit margins lost through price increases and better manufacturing efficiency.

The following chart shows key metrics that illustrate our continued growth over the past five years. We are encouraged by our progress and believe that our approach to achieving long-term sales and profitability growth and cash generation is reflected in the figures shown below. In particular, we are pleased by our ability to invest in our company while continually increasing value for our stockholders."

#### **Business Review**

Net sales for the Company's **Retail and Wholesale Products Group** were \$40,260,000 and group income was \$3,557,000 in the fourth quarter. Net sales for the fiscal year were \$157,311,000 and group income was \$14,973,000. Net sales in the quarter and the fiscal year increased as a result of strategic pricing and new business in private label cat litter. Additionally industrial and automotive business increased in the fourth quarter from new customers acquired through a small asset acquisition. Gross margins for the Group, however, were negatively impacted by higher transportation, packaging and materials costs.

Net sales for the Company's **Business-to-Business Products Group** were \$19,245,000, and group income was \$4,221,000 in the fourth quarter. Net sales for the fiscal year were \$75,048,000, and group income was \$15,782,000. Net sales in the quarter and fiscal year increased as a result of new business and pricing strategy. Throughout the year, the Group experienced net sales and volume growth primarily in bleaching clay and animal health and nutrition products; however, the Group experienced sales and volume declines in agricultural carriers and sports turf products. Increased manufacturing processing costs and transportation negatively impacted the Group's gross margins.

#### **Financial Review**

On June 10, 2008, Oil-Dri's Board of Directors declared quarterly cash dividends of \$0.14 per share of outstanding Common Stock and \$0.105 per share of outstanding Class B stock. The dividends were payable on September 5, 2008 to stockholders of record at the close of business on August 22, 2008. At the July 31, 2008 stock closing price of \$17.22 per share and assuming cash dividends continue at the same rate, the annual yield on the Company's Common Stock is 3.3%.

The Company has paid cash dividends continuously since 1974. The Company's Board of Directors has increased dividends annually for the past five years.

Cash, cash equivalents and short-term investments at July 31, 2008, totaled \$27,764,000. Capital expenditures for the fiscal year totaled \$7,302,000, which was \$153,000 less than the fiscal year's depreciation and amortization of \$7,455,000.

#### **Looking Forward**

Jaffee said, "We have invested a great deal of resources in strengthening our core business and advancing new product development. While we will continue to take a long-term approach to our business, we will become more aggressive in introducing new products and building our infrastructure to support growth in the coming fiscal year. Our short-term focus will be on repairing our gross margins which have been negatively impacted by the rising cost of fuel."
