Daniel S. Jaffee, President and Chief Executive Officer, stated, "I am pleased with the results in the second quarter, including a triple-digit percentage increase in earnings per diluted share. This was a welcome outcome as our performance in the same period last year was negatively impacted by the implementation of our new Enterprise Resource Planning ("ERP") system and several significant cost increases. Although we experienced slight sales declines within the Business to Business Group, we remain confident in the long term success of Amlan International. Net sales within our Retail and Wholesale Group were strong and continue to grow at a consistent pace. Record operating earnings in this segment reflect our cat litter business' aforementioned sales growth along with improved margins. Going forward, we will continue to focus our efforts on driving revenue and earnings growth within both business groups.

During the second quarter, Consolidated Net Income Attributable to Oil-Dri reached \$4.8 million compared to \$2.3 million last year. In addition to higher sales, we continued to benefit from our manufacturing operations' strong performance and improved natural gas

and freight costs. These favorable outcomes offset a 4% increase in Selling, General and Administrative ("SG&A") expenses in the second quarter versus the prior year. This increase represents the net effect of higher bonus accruals, a curtailment gain upon the freeze of our supplemental executive retirement plan, and lower consulting costs related to the ERP implementation in fiscal 2019.

Our Business to Business Products Group's second quarter revenues decreased 8% compared to the prior year, primarily due to the loss of a large customer who purchased our traditional agricultural products. This decline was partially offset by increased sales for our co-packaging coarse cat litter. Revenues of our fluid purification products were down 1% in the second quarter versus a year ago. While we experienced an increase in demand for our edible oil purification products, primarily in Europe, a biodiesel processing customer closed its U.S. plant which negatively impacted sales. Animal health and nutrition product revenues were flat for the quarter, reflecting growth of our feed additives in Mexico and Asia, excluding China, offset by declines in sales of our products in China. Our business in Asia, including China, continues to be impacted by the African swine fever, as sales to pork producers have not fully recovered since the spread of the virus in fiscal 2019. With the recent outbreak of the novel coronavirus (COVID-19), our sales office in China temporarily closed, due to restrictions from the Chinese government. The spread of the virus has also limited travel by our salesforce and delayed product shipments.

Operating Income in the Business to Business Group was up 4% in the second quarter versus the prior year. Decreased natural gas and freight costs helped offset an 11% increase in SG&A expenses over the prior year. These higher SG&A costs reflect elevated product development costs, support, and compensation related expenses.

The Retail and Wholesale Products Group experienced a 7% increase in revenues in the second quarter compared to the prior year. Total domestic cat litter sales rose 10% in the quarter over last year, reflecting increases in both branded and private label litter products. Revenues of our private label scoopable and coarse litter increased due to higher demand from both existing as well as new customers. In addition, we witnessed continued sales growth of our branded coarse cat litter and litter box liners. Our subsidiary in Canada also contributed to this business segment's increase with gains in cat litter and industrial absorbents sales.

Operating Income for the Retail and Wholesale Products Group reached a record \$5.6 million in the second quarter compared to \$2.7 million last year. Increased sales

combined with lower natural gas and freight costs offset slightly higher SG&A costs. A reduction in advertising expenses also occurred within the quarter. However, we expect advertising spending in the remainder of the fiscal year to result in a higher total advertising expense for fiscal 2020 than for fiscal 2019."

The Company will host its second quarter of fiscal 2020 earnings teleconference on Friday, March 6, 2020 at 10:00 a.m. Central Time. Participation details are available on our website's <u>events</u> page.

###

While Oil-Dri's founding product was granular clay floor absorbents, it has since greatly diversified its portfolio. The Company's mission to "Create Value from Sorbent Minerals" is supported by its wide array of consumer and business to business product offerings. In 2016, Oil-Dri celebrated its seventy-fifth year of business and looks forward to the next milestone.
